Re: Wastewater Price Increase

Please be advised that the City of Inman has increased the cost of providing wastewater services. The City of Inman does not bill you directly for the wastewater charges. Instead, the Inman-Campobello Water District (ICWD) includes the wastewater charges on the water bill you receive each month. Therefore, beginning in July 2016, you will see an increase in your bill from ICWD even though ICWD has not increased the cost of providing water.

This increase will be, at a minimum, $1.36 per month if you are **inside** the City or a minimum of $2.86 per month if you are an **outside** the City customer. For more information concerning how much your wastewater charges will increase, please contact the City of Inman Wastewater Treatment Plant at 864-472-3578 or City Hall at 864-472-6200 or log on to www.cityofinman.org for more information.

Sincerely,

City of Inman
